In war it is possible for such a missile to knock over two or three of the enemy, and then reaching a division of your own army to disball that fired at the Battery will bring up at Fourteenth street, bringing down six or seven people on the way, is a dangerous article to monkey with, even in experimental firing. It certainly looks as if the Mauser

SAVING A SOUL.

The Rev. W. A. Huckabee, a wellnown preacher and Populist, of Farmville, Ga., was arrested at Providence Ky., yesterday. The Reverend Huckabee is sixty-five years of age, and has done his part in keeping up the census re-turns of Farmville, Ga. He has a large family of grown-up children.

The cause of his arrest was his ab-

sent mindedness in carrying off with him when he left Farmville a few days ago young and interesting daughter of the dllage-not his own-in addition to most of his worldly goods. The daughter is eighteen years of age, pretty, and the child of a respectable widow.

When arrested the plea of Huckabee

was a novel one. He admitted the pos session of the eighteen-year-old daughter, but furnished ocular proof that he had taken with him his Bible and his hymn book. It was to wrestle with the young lady in prayer and to do battle with the apirits of evil for her soul, that he had carried her off from the temptations of the Georgian village.

It is believed that the Reverend Huckabee's Bible plea will not avail him. He is to be carried back to Georgia and there is said to be a strong smell o warm tar in the Farmville air.

ONE OF FAME'S FUNNY LITTLE WAYS

Fame is a fickle old jade. She's as coy and coaxsome sometimes as a cucumber when that legume is selling at twenty five cents per cuc. in the market, and as heartless as a tin horn with a rift in it. at other times. Like the frequently home, quoted flea, just when you think yo have her under your thumb, figuratively speaking she isn't there

A direct and impressive example of this fact is in evidence to-day. Hoss Platt has been a boss, every inch of him or thinks he has. He has held legislatures, political conventions and the like in the hollow of his hand. For years he contains the complete news of has been riding the highest and whitest the day, classified and summarized for crest of conspiculty. Fortune emptied venience of the reader who wants her cornucopia all over him, and Fame let her searchlight glances illume him Great has been too small a name for

But see how shabbily dame Fame at an rour late enough to insure treats him to-day. Mayor Strong speaks of him in a published interview with slete covering of the news, and frightfully flippant contempt as "some throughout the city during the evening, simply styles him "some person." O once iridescent and imperious Boss! See how ridiculous that old jade Fame at last has made you!

Of the case of Murray and Kerwin Mayor Strong says: "The fact is that I told everybody who asked me about the matter that I did not intend to re move those men. That was up to three weeks ago. I did not, up to that time, intend to remove them. I believed that they, as Republican Commissioners would stand for reform in the municipal ME. LEXEW'S MUCE-AMENDED BILLS, was introduced looking to a reformation of the police system these two men voted against it. They stood in the way of that reform which the people had the manded and which I had promised to that Police Commissioners Murcay and Kerwin do my best to bring about. There was no course left but that which I have decided on." There is no concealment and no double face about this. It is Commissioners Murray and Kerwin who have their own deserved doom.

Platt must feel sorry that he isn't a boss in Turkey. The Sultan announces of Removal shears, borrowed, by the thinks of appointing fifteen carmakans and ten mutessarife to office. What a has snipped off a bit here and a strip terrible lot of patronage to be wasted over there. Platt has some healthy henchmen looking for jobs that would make good mutessarifs, not to say first-

The Crase for Crepon.

Women have positively gone crepen, mad. No new stuff can hope for the slightest attention unless it has crepon characteristics to recommend it. Even cotton goods are woven in humps and ridges and wavy undulations, and all the silks and wools with any claim to popularity, and even the air-fairy chiffons-which might have been supposed to be lovely enough in themselves have crepon surfaces. Ribbons have caught the craze, and have ridged edges, So have veiling, and frightfully unbeco ing it is, too, giving its wearer's features a blurred, worry effect, as if they were height, and its decline may confidently be expected.

Indirect sless find one cent to start a court about 25 cents. The agents go about and fun to pur have a New York Directory for 1894 for citizing the people they are to be given to the poor. This is not true, as even thing is said I have the dinner a not his to give to the dogs. My husband worked in the woodyard that belongs to the Bureau of Charities, and after working nine hours in paid 49 cents. If he is sent out to do some is paid to cents. If he is sent out to do some work for private parties he is not allowed to have the money. It is not to the woodyard, and the man got half and the Bureau keeps in other built. If the rich people who subscribe the money only knew half, the Bureau of Charities or its officers would sum have to work for a living. MRS. HAWSEN.
